MID-SEMESTER EVALUATION

The purpose of this evaluation is to see what I'm doing that helps you succeed in the class, and what I can do better. Remember that I'm the only person reading this and it is anonymous, so please be honest. Do not write your name anywhere on this paper.

For questions 1-5 please use the following scale: 1=disagree strongly, 3=neutral/no opinion, 5=strongly agree. Circle the appropriate response.

1. I feel comfortable asking questions during class if I have them.   1   2   3   4   5
2. I feel that Kate is very approachable outside of class if I need her help.   1   2   3   4   5
3. I know where the Stats Table is.   1   2   3   4   5
4. I know where the SMLC building is.   1   2   3   4   5
5. I can read Kate's writing on the board.   1   2   3   4   5

6. What do you think about the number of in class example problems? Draw an arrow to where you fall on the continuum.

   Not enough --Way too many

7. What was the most helpful in preparing for the test? Please circle your top choice.
   a. Lecture notes and examples from class
   b. StatsPortal quizzes and Learning Curves
   c. Practice exams from department website
   d. Reading the book
   e. Practice problems from the book I did on my own
   f. Other _____

8. What do you like about the way Kate teaches and/or conducts the class?

9. What changes would you like to see made in the way the class is taught? (Note: I can't change anything about the StatsPortal requirement, the grading scheme, test questions, or course topics, so please focus your comments on the things I do have control over.)

10. Do you have any other comments, suggestions, concerns about the course?

Thank you for your feedback! ☺
